CSU, Chico is hosting an ERPsim game training August 14-16, 2017

If there is sufficient interest, Chico may also provide an introductory course taught by Professor Tom Wilder, also during the August 14-16 timeframe.

Please RSVP to sapucc.admin@csuchico.edu by July 20th, and state which training you’d like to attend. Please select ONE training to attend as they would be held on the same days/times.

Details:
Trainings (please RSVP for only ONE)
  1. ERPsim game training, taught by Dr. Christine Witt
  2. Introductory Course, taught by Professor Tom Wilder (to be held only if there are enough RSVP’s)

Location of event: held on the CSU, Chico campus (see campus map)
  ERPsim game - room to be determined
  Introductory Course - room to be determined

Days: August 14-16, 2017
Times: 9am-5pm

General logistics: are below
*Required equipment: You will be required to bring your own laptop
*note: coffee, iced tea, and light snacks will be provided

Information about the courses:

ERPsim:
The objective of this course is to prepare faculty to use ERPsim in their classrooms. Upon completion of the course, attendees will officially attain ERPsim Certified Instructor status, allowing them to use ERPsim in their classrooms.

ERPsim games are an innovative “learning-by-doing” approach to teaching ERP concepts, and where actual systems are transformed into dynamic learning platforms.

Participants must manage their business using a real-life ERP system (SAP ECC 6.07) in a competitive environment comprising other participants who are managing competing companies.

ERPsim simulate and accelerate time to create a dynamic learning environment. It also automates clerical tasks to let participants focus on decision making and analytics.

ERPsim supports real-time analytics, and can be combined with most analytical tools to provide a risk-free environment to develop analytical competencies.

Introduction to SAP:
Participants are introduced to the SAP University Alliances program, SAP S/4 HANA, SAP ERP, and best practices for teaching with University Alliances curriculum. New curriculum content featuring SAP S/4 HANA will be introduced. Additional ERP processes will be covered using the "Introduction to SAP ERP using Global Bike Inc." curriculum with a focus on teaching the concepts, principles and techniques related to these processes and hands-on exercises.

Please let Chico know if you are interested in attending one of these trainings. The ERPsim game training will definitely be held, but the Introductory Course will only be held if there are enough RSVP’s. Please RSVP to
sapucc.admin@csuchico.edu by July 20th, and state which training you’d like to attend. Please select ONE training to attend as they would be held on the same days/times.
